Door Plant At Quinif, Texas Payroll Already Tops $10,000

By James E. "Bo" Patterson

Meet the mayor, city council and corporation Judge of Quinif, Texas a suburban Cameron metropolis. The all-round owner and operator of Quinif also owns the name...he is George Quinif of Atlanta Georgia. Quinif, Texas is the site of one of a chain of the largest door manufacturing firm in the world.

Any who haven't done so should tune up the old buggy and travel out the old Waco Highway and see the original pair of metal structures invested in by Cameron subscribers already upped by one half. The third building was intended to house a manfacturing plant for door accessories or "Jambs" but this has been deferred for the time so that more doors may be stored and service on demand can be offered the wholesale door buyer.

"I am positive that within a year the production of this plant will be doubled" said the affable George Quinif. Production for the 43 man production crew, those who punch the time clock, has now been reached 1720 doors per eight hour day. This means a payroll in the neighborhood of $500 per day.

"The "Mayor" figured a few more days now would be long enough for him to stick around, now that the production problem here is licked, and in the capable hands of John Gay, production foreman. The son Ed Quinif, and heir apparent will be here for a few weeks in the shipping department. Ed is a Junior next year at Center College in Danville, Kentucky. He is a guard on the "Praying Colonels" and in '55 the team went undefeated for the season. The college of 600 paying students couldn't raise the fund to play, as invited, in the Tangerine Bowl in Florida, he said. Center' numbers the great "Bo" McMillan among it's immortals and the "Time we beat Harvard 6-0" is a timepost almost equal to AD and BC for noting events at Center. Ed goes back to continue his education toward a Bachelor of Business Administration next fall and after that the Walled-Lake "Door of Opportunity" will undoubtedly be open to him.

Back to the conversation with George. By the way I didn't ask his permission to call him George but I'll bet my bottom dollar that it's alright with him. George Quinif, after nine years a highly successful door manufacturer, and

George Quinif

sole owner of his business, is as easy to talk with as the little wife after you've given her a box of chocolates. "You Don't Have To Be Smart To Make Doors" he says. We were just lucky (he and his original partner). We built doors in the beginning with the rest of the boys for two years, we kept records and WE KNEW costs and time by the time our business had grown so much that we had to turn our full attention to administration.

Today Walled-Lake with six plants in America making two million doors per year just as good and about thirty five cents cheaper than competitors is selling those doors with a minimum of sales effort, depending on mailing pieces to sell their doors to "price-wise" middlemen.

Home office of Walled-Lake doors is today in Detroit, a scant twenty miles from the birthplace of the door in Walled-Lake Michigan. Telephone calls and mail are expedited by this move Quinif explained.

The statement quoted earlier "You don't have to be smart to

Four other Guardsmen received their first stripes and were promoted to Private First Class. They were: Pvts. Doyle R. Armstrong, Bennie L. Kennon, Harlan J. Mees and Daniel A. Mitchan.

Battery C also reported that the unit was making preparations to attend its annual two weeks of National Guard summer camp which will be held this year at North Fort Hood from the 8th. through the 22nd. of July.

In March 1954, two enlisted WAVES were selected for officer training, beginning a program to integrate outstanding enlisted WAVES into the officer grades.

Low Cost Housing Moving Toward Reality As Land Options Signed

Narvie Caperton, chairman of the Cameron Housing Authority, said this week that option has been secured on sites for both white and non-white housing units to be built in Cameron, under the Federal Housing Authority.

Both sites will have to be appraised and proof tendered the Federal Authority that payments for the land is in line with nearby valuations before the okay for purchase is granted Caperton said A committee of appraisers is now on that job.

The white settlement is proposed for property in the Terrell Heights Addition now owned by Mrs. Clark Kelly and Ben Rivas. The non-white housing units are scheduled to go on property in the Mary Lake Culpepper property located roughly on the north side of West 12th., West of the Southern Pacific tracks and south of the County Farm.

Steady progress is being made toward the purchase of both sites and construction of the low-cost units, the chairman said.

A challenge is being issued to all the people of Milam County to make this the biggest and best possible year for a chest X-ray survey. "Rembember no home is sage from tuberculo is until all homes are safe," Dr. John Bryson, Milam County Health officer said.

FFA Chapter Has Three Day Camp At Meridian

The Cameron Chapter of FFA returned Sunday, June 3 from a three day encampment on the Mayfield Dairy Farm at Meridian, Texas.

The boys enjoyed fishing, swimming, and plenty of eats. They were accompanied by their advisor L. R. Thompson.

Milam Water District No. One; Directors Election Due June 23

The question of whether the organization of Milam County Water Control and Improvement District Number One shall be confirmed, and the election of five Directors for said Milam County Water Control and Improvement District will be submitted to voters of the entire district on June 23.

The entire district will comprise one election precinct and the voting will be held at the Buckholts School. Officers of the election will be Paul Sakewitz Presiding Judge, J. V. Petruy, Assistant Judge, Clara Balusek, and Bernice Woodward clerks.

A certified list of the qualified resident property taxpaying voters of said district will be in the hand of officials. Only bona-fide property taxpayers of the district may vote according to the legal notice published for the election.

Names of five citizens who have been serving as directors are listed on the ballot for election. Any of the five names may be scratched and another name written in his stead. Those listed are Frank Torrascik, Adolph Gresak, Floyd Stark, Fred Gresak and John Zajicek.

Yezak Sets Up Highway Meets Without Knowledge Of County Court Says Judge

Representative Herman Yezak, it was reported in Commissioner's Court Monday has arranged highway meetings for two Milam County delegations to be heard on Thursday, June 21 in Austin. Both meetings were arranged without knowledge of the Commissioners Court and District Engineer Blair was thus notified in a communication from County Judge, Charlie Smith.

One of the committees to be haerd is from the Gwuse Hanover sector and the other will be seeking state relief on a FM road from Cameron to Yarrellton via Marak. This road according to Judge Smith will call for a 100 foot right of way on a road which has at present five ninety degree turns which will have to be straightened out. The Judge pointed out that this section has the highest renditions in the county and deserves attention.

Controverting a statement in the Herald last week to the effect that he would appear before the State Highway Board with the committee from Gause-Hanover the Judge declared that such was not his intention, as reported to the Herald by committee head Dixie Walker.

On the subject of Highwwy 36 right-of-way the Judge read a proposal from Ben Ford of near Milano in which the Ford offered his property in its entirety for sale to the county since he alleged the highway would come so close to his house and buildings as to make them untenable and would cut off a large portion of his field from the house. The price stipulated by the property owner was declared to be too high and a counter pgoposal wws mentioned by the Judge.

A petition by the Citizens of Buckholts sought a Justice of the Peace for precinct six. 82 petitioners asked the appointment of Paul Sakowitz. The petition was granted by the court with a salary of $60 stipulated.

Joe Richter was appointed by the court to fill the vacancy of Constable, Precinct 2 at a salary of $60 per month, an appointment he will hold until January 1 when his un-opposed candidacy for the position will become his by election.

The Rockdale Feed and Seed Company was accepted as public weigher in annual routine business of the court.

The County Board of Equalization will meet at 10 a.m. on June 18 according to notice of the court

Half the cost of .29 miles of road past the Walled-Lake Door plant near Cameron will be borne by State accoring to communication from the State Highway Department. The right of way for the class C road may be 120 feet but the Judge was of the opinion that 100 feet would be sufficient. The roadbed to be built of twelve inch compacted base.

Condemnation was ordered on FM 908, 9 miles northwest of Rockdale on the property of Earl Leach.

Proposals from seven surveyors county line, Justice and voting precinct lines were read. They varied in their estimates from a low of $11,892 to a high of $42.500 Both of these bids were from Austin firms. Clifford Thompson of Cameron did not turn in a bid on the project. The County Judge declared that he had revised his offhand estimates upward on the poy sible cost of survey from $2,000 to $4,000 and even $5,000. The bidders were advised that the court would take their bids under advisement.

"Mixmaster" Of Ceremonies Pappy O'Daniel

Mixing Old Time Politics-Religion At Cameron Today In Fire Truck Oratory

Today, Thursday noon, will see some good old fashioned politics get mixed up, but good, with some "so-called" Old-time Religion when Pappy O'Daniel rides his red fire wagon-rostrum into Camerm "On his way to Austin to put the fire out." (He sells fire-insurance now.)

The former gvernor-senator is sticking to his old tactics, complete with string band, so it is reasonable to suppose he is sticking to his old platform of the Golden Rule and The Ten Commandments.

To say the least there will definitely be some "Old time politickin" done in Cameron today. At least his advance men made a date with the police Monday, by telephone, for Thursday at noon.

Rockdale Rotary Offers Concert Free To Public

The Rockdale Rotary, Lions and Music Clubs are sponsoring a concert at the high schog auditorium Thursday, June 14 at 8:15 p.m. There will be no admission for the concert.

Jerry Busby, pianist of Tyler and Margaret Williams, contralto soloist of Waco are the artists who will put on the concert. Both artists are musicians of exceptional ability and will present a concert that will be pleasing to the whole family. The program will consist of classical, semi-classical and music from current Broadway stage productions and better movies.

Busby and Miss Williams are students of the Baylor University School of Music and have taken part in a number of the outstanding music programs at Waco Hall

People of the Central Texas area are extended a cordial invitation by the Rockdale civic clubs to attend the performances.

Austin Recreation Mid-Tex Squares To Hold Summer Dance

The Mid-Tex Square Dancers Association, in conjunction with the Austin Recreation Department is presenting its Annual Summer Square Dance Saturday, June 16, at 8 p. m. at the Austin Athletic Club Terrace.

Round dancing will be from 7 to 8.

Emcees for the dance will be C. C. Rockwell, Jr. and George Lowrey, Jr., both of Austin. Callers will be from different parts of Central Texas. Out of town callers include Gladys Brooks, San Antonio, a singing caller; Richard Robertson, Temple; Mark Towery and Wallace Tucker, Rockdale; Lawrence Waggoner, Taylor; Everett Green and Bob Lewis, Houston.

Music will be by Jim Tidwell's Cripple Creek Ranch Hands.

Batte Stag Party Honors Two June Bridegrooms

Mrs. R. L. Bate, Sr. honored Lt. William Robinson with a stag dinner party Saturday evening, June 9 at her home, "The Sycamores."

Barbecue with all the trimmings followed by desert was enjoyed.

The table was centered with a bridegroom doll complete with tophat and cane. Flowers and a rolling pin were arranged at ris feet. Gifts were placed on the table for the honoree and his bride elect and for Eldon Batte and his bride-elect who will marry in Michigan on June 23.

Joe Hickman served as host and other guests were La Bertice and William Robinson, Roy and Billy Hensley, Ernest Batte, Billy Bob Adams, Rev. Ernest Davis, James Kahler, and Eldon Batte.

The modern dance is a creative or interperative type of movemen. Grace and poise are among the most important achievements accomplished in the course.

Special notice is placed upon the free play offered to all boys and girls ages 5-9 which is to be held every Thursday night at 6 p. m. at the athletic field. During this time songs, games, and various activities will be offered to the youngsters.

Boys and girls, it isn't too late to join in the fun of the summer recreational program so follow the schedule carefully and attend the activities just for you.

O. J. THOMAS PROGRAM

Under Willie Anderson

The schedule of activities for the colored summer recreational program is as follows:

10 a.m. to 12:30 Mondays, Tuesdays, Thursdays and Fridays - basketball and horseshoe pitching for girls and boys.

5 p.m. Little League baseball for large boys.

5 p.m. to 9 p.m. Volleyball for boys and girls.

The program got off to a good start Monday with two basketball games in the morning and a Little League baseball game and a big boys game in the afternoon.

"We will not be satisfied with the program until all the able bodied youths are participating in the program," said the director, Willie Anderson. We are hoping that the girls will come forward and register in large enough numbers so that we may have girls softball and volleyball games.

Police Blotter

This Week In Cameron

Between 9 and 9:30 p.m. Monday the home of C. L. Sadbury, principal of O. J. Thomas was pilfered of a radio and clothing. The principal believes that his return frightened the burglars away or more would have been taken.

A knife fight Saturday brought fines of $21.50 from each of the participants in corporation court. The arresting officer was of the opinion that one of the principals was fighting in self-defense however the Judge found both equally guilty.

Six were fined for public drunkeness at $21.50 each for a total of $129. One of these resisted arrest, which cost another $21.50 or 28 days in jail.

Four were fined $10 for reckless driving; one $5 for running a stop sign and three $21.50 each for driving without drivers license (up to date). One paid $21.50 for speeding $21.50 for driving sixty miles per hour in a thirty mile speed zone.

San Gabriel Baptists Celebrate 100 Years Of "Un-erring" Growth

San Gabriel Baptist Church celebrated it's 100th. birthday, Sunday with a crowd of several hundred attending.

The church was constituted in 1856 by Elder W. B. Eaves as part of the Little River Association.

Elder W. N. Mason was the church's first pastor, and the first report was sent to the association showing a report of 22 members.

Of interest in the old records was a report on the appointment of a committee to call on "Erring brothers and sisters" to request their appearance before the next conference. It is remembered that th "Erring ones" rarely failed to put in their appearance. The first organized Sunday School was in 1895 with W. H. Jones as superintendent. The first weekly prayer meetings were started in 1897.

Salary of the early pastor ranged from $120 to $150 per annum. In 1898 the church property was listed as being worth $200.

San Gabriel Baptist Church has shown a steady growth throughout the years. A new, modern, church has been constructed within the last few years. The present annual budget is $5,335.

The oldest, living. charter members are Miss Era Guthrie, Mrs. N. E. Gilchrist and Elige Cast.

C. R. Perrin is pastor of the church at this time.

Today's text—We believe that only through the grace of the Lord Jesus Christ, we shall be saved even as they. **Acts 15:11.**

Father help me by my attitudes and actions to represent correctly the gospel of grace. May I regard no one merely from a human point of view. Rather help me see everybody as a brother for whom Christ died—Amen.

PROCLAMATION

WHEREAS, it has come to the attention of the undersigned that during the period June 20-22, 1956, members of the Texas Butane Dealers Association will gather in Dallas for their Eleventh Annual Convention and to view the Southwestern Butane Exposition, and

WHEREAS, the last decade has witnessed remarkable progress by the butane industry with the result that more than a half-million Texans now enjoy modern comforts and facilities through the use of this Liquefied Petroleum Gas for domestic purposes, and

WHEREAS, butane and propane gases are by-products of the great Texas petroleum industry, it is meet and proper that Texans join in the observance of this anniversary occasion,

THEREFORE, I, Robert Weems, Mayor of Cameron, Texas, by the authority vested in me, hereby proclaim the period of June 18-23, 1956 to be BUTANE-PROPANE WEEK in this community and call on all citizens to give thought to the benefits which this Texas product has afforded to residents of rural and semi-urban areas, and to honor the members of the industry engaged in its production and distribution.

SIGNED and sealed at Cameron, Texas, this the 12 day of June, 1956.

Joe C. Darrow

Joe C. Darrow, a Lone Star Gas Company vice president, has been placed in charge of all distribution properties of the company, according to an announcement by Chester L. May of Dallas, senior vice president. The properties consist of company-owned and operated gas systems in Cameron and 450 other cities and towns in Texas and Oklahoma, May said.

With headquarters in Dallas, Darrow takes over his new assignment June 16 after serving as general manager of the Fort Worth Division of Distribution from 1951 until January, 1954, and as vice president in charge of the division since that date.

Darrow's successor in Fort Worth is A. P. Rowland, recently elected vice president, who began his career with Lone Star in 192:.

Darrow, a native of Milford, Texas, attended the University of Texas and went to work for Lone Star in 1927 as a construction timekeeper. He was appointed local manager at Hugo, Oklahoma, in 1932, then held district managerial assignments at Itasca, Terrell, and Brownwood until 1946 when he was appointed superintendent of distribution operations for the Dallas Division of Distribution. He was transferred to Abilene in 1949 as superintendent of Lone Star's West Texas distribution properties. Two years later he was appointed to the Fort Worth division as general manager.

LITTLE RIVER PHILOSOPHER READY TO JOIN SOIL BANK WITH PAY FOR CROPS NOT YET TOO FAR ADVANCED

Editor's note: The Little River Philosopher on his Johnson grass farm on Little River will get about as far with his idea this week as he does with a lot of others he's had. . . . . .

Dear editar:

Since Congress was nice enough to provide us farmers with a soil bank, I have been studying every angle I can find to figure out a way to get in on it. It's not going to look right if we sit back and drag our feet.

Therefore, I've been reading everything I can lay my hands on in this connection, and last night I believe I ran on to the idea I've been looking for

It was a statement by Sec. Benson, who I guess you'd say is president of this bank and is the man to look to. According to him, he is going to be as generous as he can in getting the bank going and will even let a farmer put some land in it this year that's already been planted provided "the crop isn't to far advanced."

Now I haven't got time to take this to the Supreme Court to find out what "too far advanced" means, but if Sec. Benson will place a generous, liberal interpretation on it, he and I can do some business.

For example, I've got some crops not only this year that are not too far advanced, I've got some from 1955, 1954, 1953, 1952, and 1951 that could be classfied in the same category. What I would like to do is put 50 acres of not too far advanced crops in the bank this year and also for the years just mentioned, using the same 50 acres multiplied by payments for six years. After all, this big surplus we've got staring us in the face wasn't created in one year, and a man ought to be entitled to payment not only for not contributing to it this year but for past years too.

A long-range, far-sighted program ought to have the virtue also of looking back as well as forward. Of course, I understand to get land in the bank with a crop that's not too far advanced, you'll have to plow it up, but the payment is not for plowing up, but for dodging a surplus, and what difference does it make to Sec. Benson whether I plow up this 50 acres six times, one for each crop that never got too far advanced since 1951, or just once?

If something can be worked out along this line, let me know I'm a specialist in producing crops that never get too far advanced.

Yours faithfully,

J. A.

Eight Weekly Contests Planned As "Mercury Soars"

80 new Mercury Phaetons, 200 television sets and 2,400 other prizes is announced by Joseph E. Bayne, general sales manager of the Mercury Division. A separate contest will be held each week for eight weeks beginning June 11 and ending August 4, Bayne said.

Official entry forms may be obtained from any Mercury dealership free.

Special provision is made for a cash bonus of $10,000 to each of the top ten weekly winners who bought a new Mercury during the contest period.

Prizes are the same for each of the eight weeks. In addition to a 1956 Mercury Montclair Phaeton, first prize winners receive an all-expense trip to New York City for two and will be special guests at the Ed Sullivan television show. The second to 10th prize winners each week receive Mercury Monterey Phaetons. All Federal excise taxes, state and local sales taxes will be paid.

Another special award of $2,000 cash in addition to a new Mercurcy Phaeton will be made to any winner of one of the top ten prizes in any of the eight weekly contests who purchased any used car from an authorized Mercury dealer after June 10 but not later than August 4, provided the purchase is made prior to being advised he or she is a winner.

Contestants will be required to complete the fourth line in a rhyme which praises the power and style of the Mercury Phaeton four door hardtop sedans.

Contestants must be 18 years of age or older.

How Do You Rate Cameron

Editor's Note:

Here is a questionnaire that has been used by hundreds of towns in the last three years, and has produced some interesting results It is borrowed from TOWN JOURNAL.

It may prove to be an eye-opener for many people.

Don't fudge, just see how far short of 30 "yes" answers did you find yourself? How much room is left for improvement in our town?

No questionnaire is foolproff. But if you can circle "yes" in 30 or more of the virtues below, chances are you live in a town of which you can be proud.

1. Most high school graduates stay in town. Yes No
2. Getting a loan on a sound business venture is easy. Yes No
3. The local paper constantly pushes civic improvements. Yes No
4. There's a Chamber of Commerce with a live-wire manager. Yes No
5. Local speeders pay the same fines as out-of-towners. Yes No
6. There's a place to swim within easy reach. Yes No
7. Young couples have little trouble finding a place to live. Yes No
8. The head of your government is a "get-things-done" man. Yes No
9. Town entrances are free from junk, shacks and billboards. Yes No
10. Teachers' salaries are better than the state average. Yes No
11. There's at least one doctor per 800 people in your county. Yes No
12. There's a library with a good collection of recent books. Yes No
13. Newcomers quickly feel they are part of the town. Yes No
14. Schools have plenty of room for students. Yes No
15. Fire insurance rates are low for your type of town. Yes No
16. Service, veterans' and womens' club team up on projects. Yes No
17. There is an active, well organized Boy Scout troop. Yes No
18. A modern hospital is within your trading area. Yes No
19. All streets are paved and sidewalks are in good shape. Yes No
20. Well-stocked stores keep shoppers in the town. Yes No
21. There's a hotel or motel you'd enjoy if you were a visitor. Yes No

23. At least one restaurant serves outstanding meals. Yes No
24. The sewer extension program keeps pace with new housing. Yes No
25. It's easy to get volunteers for any worth-while project. Yes No
26. Public toilets are provided for farm folk shopping in town. Yes No
27. Prompt, reasonable priced ambulance service is available. Yes No
28. Good zoning keeps factories from residential districts. Yes No
29. There's an annual Clean-up, Paint-Up, Fix-Up week. Yes No
30. Streets throughout the community are well lighted. Yes No
31. More than half the church congregations are under 40. Yes No
32. Shade trees lineshnearly ail the streety. Yes No
33. There's an ample supply of goob drinking water. Yes No
34. There's a recreation center where young people dance. Yes No
35. The business section has a modern, prosperous look. Yes No
36. There's as much interest in local as national elections. Yes No
37. The tax rate is attractive to new industry. Yes No
38. There's a community council to guide town progress. Yes No
39. There's an active PTA. Yes No
40. Firemen must take regular training courses. Yes No

(Editor, again: Now honestly, without fudging, just how far short of 30 "yes" answers did you find yourself. How much room is left for improvement in our town? And remember, this questionnaire was designed for communities".)

Milam History Proves Terrific Task

To the people of Milam County and former residents who have moved away.

Dear Friends: For a long period of years you have awaited the History of Milam County. I began this history about nine years ago, not realizing the enormous task which lay before me. I knew the children of our beloved Milam needed a history. The older people were fast passing away and their knowledge was buried with them. The history must be written.

When I set out to write a history of the county it appeared to be a simple task, however, the history presented great obstacles, due to the fact that so many counties were carved from Milam and the original county was enormous.

I wrote with so much interest that when I took the book to a publisher, he told me I had enough material for four history books. I would be forced to cut the book down. I remembered the kindness of my Milam County friends and was deeply pained that many of my friends would be disappointed when they failed to find information they had given me. I remembered the excess material which could not be published in this history, but would be included in other histories already written, but not published until after this first history of Milam was available.

To say that I was broken hearted is a mild statement. I comforted myself with the memory of these other books which would follow the main history.

I thank you for your patience, in regard to the history, it has been a long struggle for everyone concerned.

Now, I am happy to say to you, without any future postponements, the Milam history will be in Cameron on June 18 and may be secured at the New Cameron Drug Store, Batte-Hickman office, Berniece's Dress Shop or my home, "The Sycamores."

Please pardon my mistakes, if you fail to find mention of the wonderful manuscripts or old stories you so richly shared with me, just love me and be patient.

The other books will carry the information you gave me.

I have tried to bring to the school children of Milam the elderly people, and all people, a real book. When I succeed I shall be happy. When I fail I shall be sorry!

Only one regret is present with me. My beloved husband R. L. Batte, Sr. who had faith in this history and my writing of it, has gone on. It would have been the happiest day of his life as well as mine (Monday 18, 1956) when the Milam History comes home.

Thanking all of you I am your friend,

Lelia McAnally Batte

(Mrs. R. L. Batte, Sr.

Cameron Takes No. 1 Thorndale, Milam Leaguers 12-4

Cameron's Milam County Baseball League team took the Thorndale No. 1 by a 12 to 4 score Sunday in Cameron.

Sapp was the winning pitcher and Muzon the loser.

Cameron made their runs off of 14 hits and six errors while Thorndale got their four off of six hits, suffering seven errors.

Tom Stratton, Cameron first led the home team with three hits on five times at bat.

Cameron plays Milano there next Sunday.

Farm Pond Building On Increase Among Soil Cooperators

Construction of farm ponds within the east half of the Little River San Gabriel Soil Conservation District continues to be a conservation practice that more and more district cooperators are utilizing. According to Soil Conservation Service personnel of Bartlett, forty-three farm ponds have been constructed within the territory served by the Bartlett office in the first five months of 1956. Ponds under construction at the present time include three ponds on the W. C. J. Marquart, Jr., farm, near Bartlett, O. L. Roberts, east of Holland, John Cuban, also east of Holland and Jim Pope, Northwest of Granger.

Prior to 1951 few ponds were being constructed on cooperator farms within this area. The average for 1948, 1949 and 1950 was 25 ponds per year. Thirty ponds were constructed in 1959.

In 1951, the year heavy pond construction machinery was brought into the area by the district board of supervisors, this figure jumped immediately to 105 ponds.

The average number of ponds constructed each year for the past five years is 88 per year for a total of 440 ponds constructed during the past five years. 1956 is underway towards being an average year in number of ponds constructed.

A good farm pond is of great value, or could be of great value, to most of the farm units within the district. Unfortunately, many farm units just don't have an adequate site for a farm pond. This being due to most instances to the lack of ability to hold water on the part of the soil material involved.

Red Cross Sets Budget With $4,459 Bank Balance

Principal item on the budget for the Milam county Red Cross chapter this year is $3,264.00 for the blood program. The total budget is $4,459.00.

The budget was adopted at a meeting of the chapter in Rockdale Friday night and followed report by J. D. Peeples, treasurer

The budget lists, $180 for loawn to service men some of which may have to be charged off; grants and outright gifts $50; salwries none; phone, telegraph, etc. $200; disaster service $35, office; of volunteer service $130; blood; program $3264; other local expenses $100; local emergencies $500. Total $4459.

The budget is made up for the period June 1, 1956 to February 1, 1957, a nine month period. The next annual drive will be in February to start a twelve month year from that date.

J. R. Yeager, chairman, said that the drive for funds this year brought in a total of $7,622.88. Of this amount the Milam county chapter retained $5,244.54, and the National headquarters got $2,378.34.

From Milam county's share of $5244.54 there has been paid $1005.32 to the blood program, a deficit carried over from last year and $205.03 other expenses, leaving a balance of $4034.19 cash on hand.

A revolving fund of $150 for the home service officer was set up. Mrs. Sara Bankston, home service officer, was instructed to make arrangements with Betty Jo Lanford to have the Red Cross telephone listed at her homz and she will receive calls for Mrs. Bankston. The group also discussed plans for a proposed disaster committee and program.

The Milam county board voted to instruct its delegate to a July blood center meeting in Waco to vote for the proposed new hospital financial participation plan which has been worked out to help bear the cost of the blood program and lessen the load on the county chapters.

It was pointed out that the blood program is the biggest expense on county Red Cross chapter budgets and thus is responsible for the high quota given the county on its fund drive. The cost of the program is based on popuation of the county.

Meeting with the board Friday night was Ralph Husted, area representative from the Austin office.

Milam Residents Entitled To Get Blood Anywhere

Residents of Milam county are entitled to get Red Cross blood when needed regardless of where they are at the time.

Merle Wheeler, director of the Central Texas Blood Center at Waco, meeting with the Milam County Red Cross Chapter in Rockdale Friday night emphasized this fact as the group discussed the Red Cross blood program.

Since Milam county is participating in the Red Cross blood program, residents are entitled to the blood in time of need, and this applies even though at the time they may be in some other county than Milam.

Should this happen Wheeler explained, the Milam countian should contact a member of the Milam county blood committee: Richard Moseley, Cameron; M. S. Croft, Rockdale; or Mrs. Jewel Stigall, Thorndale-San Gabriel. The committee member will make arrangements for the blood to be sent from the center at Waco.

Wheeler said that it would be much better for the patient if he works his request in this manner rather than through the hospital. He said that when the Red Cross supplies the blood there should be no charge for the blood by the hospital, although most rospitals make a service charge for the freight, handling, tubing, and similar costs.

Farm Wage Hour Law Would Peonize Farmer; Hammond

Expansion of the wage and hour law into agriculture would turn American farmers into peasants, the president of the Texas Farm Bureau has charged.

J. Walter Hammond said proposed legislation in Washington is already "a foot in the door" and, if passed, will mean the ruin of free American agriculture.

The state farm leader said bills before the Senate Labor Sub-committee now propose to eliminate: (1) the agricultural exemption on large farms, (2) the agricultural processing exemption, and (3) the exemption for "outside salesmen" wnd buyers of farm products.

In addition, Hammond asserted, the proposed bill would provide for: (1) another hike in the minimum wage to $1.25 per hour, (2) payment of time and a half after 35 hours of employment in one week, (3) and payment of overtime in excess of eight hours per day.

"This means," the Farm Bureau leader said, "an increase in the costs of farm labor as well as everything the farmer has to buy to growhhis crops. The farmer is already caught in a cost-price squeee.

Hammond said passage of the bills eliminating exemptions for large farms and agricultural processing concerns would mean ultpmate ruin for farmers.

"The foot is already in the door", he declared. "The inclusion of farm operators under compulsory Social Security lawas is a good example of what can happen. Who knows how long it will be before every frmer,alrge a or small, has to comply with mini mum wage and hour laws without that happens, it will mean that every American farmer will be reduced to peasantry."

Hammond asserted that farmers will not permit a further invasion of their rights by minimum wage and hour laws witrout a bitter fight.

"We have been pushed around enough," he said. "It's time for us to showhthe world that we can stand together to protect our rights as decent citiens.

The spotted alfalfa aphid continues to make inroads not only on the Texas alfalfa crop but is now found over the southwest and the westward to California and east from Texas to the states of the mid-south. Local county agents can supply control information.

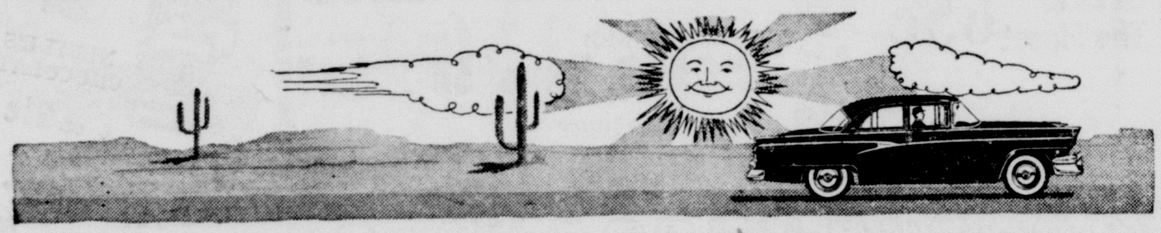
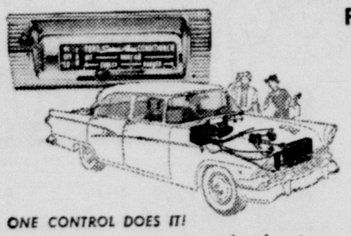
Now! An Air-Conditioned Ford for less than the cost of many medium-priced cars*





ONE CONTROL DOES IT!
A single lever gives you either heating or cooling with Ford's new air-conditioning system. For *cool* air, just move the lever to the left. For *warm* air, move it to the right. And all mechanical components are mounted in the engine compartment—no luggage space is wasted!

Ford's SelectAire Conditioning brings the comfort of refrigerated air within reach of nearly everyone!

If you have the old-fashioned notion that only millionaires can afford the luxury of an air-conditioned automobile, here is the best news you've heard in months: with Ford's new SelectAire Conditioning, you can drive a 1956 *air-conditioned* Ford V-8 for not one penny more than many cars in the medium-price field without air conditioning!*

You'll never know just how pleasant motoring can be until you've Test Driven a SelectAire Conditioned Ford. Not merely a "cooler" but a 100% air-conditioning *system*, this unit circulates refrigerated air constantly. Whether you're headed cross-town or cross-state, you'll arrive as cool and fresh as tomorrow . . . and driving will be fun again!

Your optional Ford SelectAire Conditioner will be installed by a refrigeration specialist. And you can forget about a conventional heater. This Ford unit gives you everything in one: cooling, heating, defrosting and de-fogging. Best of all, you can have a Ford V-8 *with* air conditioning for less than many other fine cars cost *without* it! See us for a Test Drive . . . today!

*Based on a comparison of suggested list prices.

D.A.R. Presents Awards Of Merit To Americans

Awards of Commendation were presented outstanding Americans at the Sixty-Fifth Continental Congress, Daughters of the American Revolution, according to the June issue of the D.A.R. magazine.

Senator William F. Knowland was recognized "for successfully sponsoring a congressional resolution requesting and authirizing the President of the United States to proclaim Constitution week, September 17-23.

The Sarah McCalla chapter in Cameron annually observes this week with special emphasis on the history, contents and recent changes in the constitution.

An Award of Commendation also was given Francis E. Walter for his work with the un-American activities committee of the House of Representatives and his efforts in behalf of the McCarran-Walter Immigration and Nationality Act.

Further awards made during the sessions were to Ralph H. Cain for outstanding achievements in patriotic education at Tamassee D.A.R. School and to John P. Tyson for outstanding achievements in patriotic education at the Kate Duncan Smith DA.R.. School.

The local chapter recently mailed three boxes of clothing to be used at these schools.

Hot Weather Hard On Egg Quality

When daytime temperatures hit 90 degrees, egg quality will hit the skids unless egg producers make some changes in management practices, says Kermit Schlamb, extension poultry marketing specialist.

From now until cool weather in the fall, refrigeration is a must if high egg quality is to be maintained. Schlamb says that 15 degrees F .is the optimum temperature for maintaining proper egg environment. Too, eggs must be gathered more often during hot weather with three times a day gathering as a minimum.

Low quality is costly to producers selling on grade. "A" quality eggs. Eggs can be properly cooled for as little as 10 cents a case.

Adequate cooling, points out the specialist, is no substitute for frequent marketings. Even with good refrigeration, eggs should be delivered to the grading station either twice or three times a week.

Good cooling, says Schlamb, means getting the animal heat heathout of the egg in the shortest possible time and at the lowest cost. A cooling unit containing a tray for holding wire baskets with space underneath for storing eggs in cases is the most desirable cooling equipment. Added egg income from the use of such a unit will soon retire its cost.

Poultry Meet Set For Texas A & M

Texans interested in seeing their poultry industry keep pace with the national industry will get an opportunity to pick up the kind of information to help them do the job on June 20 - 22. The three day poultry breeder and hatchery school and health clinic program will bring the latest findings from research and practical experience to those attending.

The annual event is sponsored by the Texas A & M College System and all meetings will be held in the Memorial Student Center on the A & M campus.

Ben Wormeli, extension poultry husbandman, says such topics as the random sample tests, what Texas broiler records show, poultry situation and outlook, feeding programs, breeding for efficient use of feed and egg production, feeding and rearing methods for laying replacements, egg legislation and turkey selection problems will be discussed by System personnel and other state authorities. Out-of-state speakers are S. J. Marsden, who heads the turkey work at USDA's Beltsville Experiment Station and Dr. R. George Jaap from the Poultry Science Department of Ohio State University.

Diseases and parasites along with control measures and suggestions for aiding in setting up a sanitation program for the plant or farm will get top consideration on the third day of the program, says Wormeli.

Copies of the program for the meeting have been mailed to the county agents and to poultry breeders and hatcherymen. These men can supply details on speakers and topics and also on other questions relating to the meeting. Wormeli emphasizes that all persons interested in seeing the Texas poultry industry continue its forward progress are invited to attend.

Water Control Chief Concern Of Soil Service

Water, as in the past, seems to be the number ome problem facing farmers in Central Texas. Soil Conservation Service technicians in the Cameron area are still concentrating most of their time to pond construction for livestock water and irrigation studies in the river bottoms for crop production.

Leo Fuchs ras just completed a 10,000 yard pond on his farm near Pettibone. This large pond will not only serve as stock water but will insure a permanent water supply and also be very valuable for recreation and water conservation. SOS personnel report that there are many locations in this part if the blacklands where these large structures will fit and be of real service as a permanent water supply.

Border irrigation systems have recently been installed on O. G. Tumlinson and Joe Barton's farm. P. W. Davis has installed a sprinkler system that will irrigate about 100 acres.

Santa Fe Offers 4-H Club Education Scholarships To 17

Texas 4-H Club members will receive 17 educational awards this fall for outstanding achievement in 4-H from funds provided by the Santa Fe Railway System.

Thirteen of the winners will represent Texas as delegates to the National 4-H Club Congress in Chicago, Nov. 25—29. Four winners will receive $250 college scholarships. Selection of the scholarship winners is based upon individual all-around 4-H project work.

These awards are the state's share of 68 educational awards and twenty-five $250 scholarships provided by the railroad through the National Committee on Boys and Girls Club Work in 11 states.

As in previous years, Santa Fe will honor its award winners at a special dinner in Chicago during the 4-H Congress.

Selection of the winners will be made by the State Extension Service.

From where I sit ... *by* Joe Marsh

Just the Facts, Ma'am!

Having a red-hot crime wave in town. Specs McGuire and Buck Hanson were caught taking money out of parking meters—*again*. I was at Police Headquarters when a nice old lady rushed in to report them.

"It was dark but I saw their faces in the flashlight beam," she said breathlessly. "You can't trust anybody these days!"

She got flustered when Chief Benson explained that Specs and Buck are *authorized* collectors—working nights after their regular jobs. "Have to get 'em uniforms," said Benson. "Third time they've been turned in!"

From where I sit, we ought to guard against accusing anyone of being "wrong" just because that's the way it *looks* to us. For instance, I've heard people talk against a neighbor because they didn't approve of his choice of beverage! (They liked tea, or something, while he preferred a glass of beer.) Be sure you have a case before you lay down the law.

BO PEEPS

By James E. "Bo" Patterson

I thought there for a little while that Bo Peeps was a pretty necessary item in the Cameron Herald until I bumped against a statement that I am a "Publicity Hound", that Peeps was just to satisfy my ego . then it came to me that The Cameron Herald was established in 1860 so Peeps couldn't be indispensable so I just knocked it off. That means "quit."

Looked back over my notes on pages that I didn't use. One was about a man who bragged "I've been in Cameron 60 years - I've seen a lot of improvements made —and you know I've been AGAINST every one of them. Drayton McLane used that one.

"He lost his Independence in Independence Mo." is the title for an unwritten song I noted about that time. It would be all about a Mr. Daniel . a sequel then could be "I'm Gona Be Wary of Harry."

Councilman Thompson proposed a Sales Talk to the people of Cameron about cleaning up the town at an April meeting of the Council. Dr. David Shapiro on the other hand made an ANTI-"Chick Sales" talk . Along that line there is going to be an ordinance requiring the purchase of the 20 gallon covered trash cans. If you want to continue FREE city pick-up of garbage and trash you'd better get one or two of these little cans from the Boy Scouts who have them for sale.

Then I ran across a little gem. In council one night when they reappointed Carl Black as Fire Chief I noted that some towns have to PAY to get a good chief. Cameron has a GOOD Fire Chief He is "GOOD FOR NOTHING."

An 1891 issue of the Cameron Herald which came out of the Milam Liberal Institute cornerstone showed the annual price for the weekly to be $1.50 . The 1956 rate you pay in Milam County is $1.75. Now the least you can do is PAY ATTENTION when I tell you about what you can do to have a better newspaper . You've had a DAILY MIDGET for 16 years and you got in the habit of turning in news DAILY (right after it happened). All that news was then set daily and was "Picked-up" in the weekly now listen here a minute "IT TAKES A WEEK to set all the news that goes into the Cameron Herald NOT A DAY. This weekly has to run in THREE distinct runs on a press that once printed the NOAH'S ARK NEWS". One run has to get off on Monday the news or "copy" in that first run has to be set on FRIDAY and SATURDAY morning (we close at noon on Saturday). If you'd get in that church. fraternal, party news on Thursday, Friday and Saturday you'd be surprised how much better a newspaper the Cameron Herald could be. Our ladies in the communities get their copy in on Monday morning. We need Monday to get that news set (along with the other work the print shop has to do.) Sooo if you've done us the honor of reading this and you'll start getting in even WEDNESDAY news in on Wednesday for the NEXT WEEKS paper you'll be doing ALL OF US a great favor and making the Cameron Herald a newspaper of which to be REALLY PROUD. You see we make the FINAL RUN. That means the last four pages which includes PAGE 1 on WEDNESDAY. The news in that last run had to happen on or before TUESDAY. Anything that comes in after Monday morning EARLY has to compete with the City Council, School Board, Commissioner's Court and other page 1 news for the small amount of space which is left open at that time. It doesn't compete with all that other stuff you see on the inside pages about things you may or may not even read because that gunk is ALREADY PRINTED by the time the late stuff gets in. There just AINT NUTHIN WE CAN DO ABOUT IT unless we get good old solid Cameron and Milam County news EARLY in our week which BEGINS ON THURSDAY. That's it, our news week is from Thursday to Thursday Thursday is the FIRST DAY OF THE WEEK at the Cameron Herald.

Peeps will come out TRY MONTHLY in the future. Which means it will come out this month and TRY to come out the next month. If you want it oftener.. if you don't like it or you have "Mixed feelings" about it just drop a card. Your card like your news EARLY IN OUR FISCAL WEEK will be appreciated.

75 Lb. Gator-Gar Taken From The Little River

The small fish in the Little River have hardly had a chance of survival with a 75 pound Alligator Gar on the rampage.

Fishermen A. Z. Fuller and Glenn Raney weighed in their catch of the giant, vicious looking gar at the Jack Logan wrecking yard Monday morning. They caught the monster on a 14-0 Shaugnessy Hood with doubled 505 pound nylon and stagine with copper coated steel wire. Finding the catch which had taken two of the mud cat baited hooks Monday morning when running the line Fuller fired 22 gage shells into the head of the mean looking "Sea Serpent" five times.

On another occasion the gar had broken a 186 pound doubled line. It was caught in the Terry bottoms.

HAPPY DAYS

Personal safety is evidently becoming a matter of increasing importance to bathers and sun-worshipers, if the contents of miladys beach bag are any indication. Along with the books, magazines and cigarettes, more and more women are smart enough to take along sun-tan lotions, eye drops, insect repellent and sun glasses to help insure a day of carefree relaxation.

There are approximately 2,800 women officers and 3,300 enlisted women in the Inactive Naval Reserve.

UP TO DATE

The "war paint" arsenal of the average white collar girl at date time is a pretty awesome thing, but all of the items in it really fill a useful purpose and guarantee her that always "freshened-up" look that's so important to the cerreer girl. Check these: Rouge, powder, lipstick, eye drops, mascara and a good hair brush all help to hide the fact that she's just put in seven or eight rough hours over a balky typewriter.

. . . and the happy farmer who invested in U. S. Savings Bonds

ONCE THERE WAS a farmer who drove to town one Saturday to stock up on fresh food and feed and news. While there, he also bought three $50 U. S. Savings Bonds—one for each of his sons, to help finance their college educations.

As he returned home, the farmer noticed that one section of his pasture fence was down and his prize Jerseys were about to get out. So he parked his car, took off his coat, hung it on a post, and started fixing the fence.

And the cows stood by, watching curiously. It had been a particularly dry season and when one bovine beauty spotted the nice green Savings Bonds sticking out of the farmer's coat pocket, she immediately sauntered over to investigate. The rest of the story you've probably guessed. While the farmer fixed, old bossy feasted. And the delectable Bonds were partly devoured and digested.

Our farmer friend, discovering his loss, feared for the worst. But the next Saturday he stopped at the bank to ask some questions. Yes, the Treasury would and did replace the chewed up Bonds free of charge.

So all of them — the farmer, his family, and even the cow — were in clover.

You may not be a farmer or own a cow, but there are lots of other ways you can lose your Savings Bonds or have them mutilated. Every major flood, tornado, explosion or fire brings a wave of Bond replacements.

So just remember this. *No matter what happens to your Savings Bonds, the Treasury Department will replace them free of charge* and date them to coincide with the original Bonds.

Savings Bonds are not only safer than cash, but one of the *best* investments you can make. You can be *sure* of the principal, *sure* of the returns (an average 3% interest when held to maturity)—and *sure* of the future when you invest regularly in Savings Bonds.

So start investing in Savings Bonds today. That's the safe and sure way to save. *If you want your interest as current income,* ask your banker about 3% Series H Bonds that pay interest semiannually by United States Treasury check.

Yoe Homemakers Make State Flags As State Project

The FHA girls of the Yoe Chapter who are planning to work toward their state degrees are making State Flags as a state project of the Future Homemakers of America. They shall send in six of them by June 15. The flags are four feet by six feet, overall measurements. Those working on the flags are Mary Ellen Richter, Colleen Damron. Gloria Harber, and Marye Horstmann, Gloria Boyls, chairman of the Texas Flags Committee, has made a flag as a model for the girls to follow.

The need for the Texas flags is shown by the many requests of Mr. George Hill of the Texas Historical Survey Committee. The Future Homemakers under the leadership of their state advisor of the Texas Education Agency, send the flags to this state office.

The Texas State Historical Survey Committee and Foundation acts as a clearing house for the flags and requests.

TEXAS POWER & LIGHT COMPANY

Best Seller that's hard to beat

This '56 Buick is packed with new features—and priced close to the smaller cars!

Buick SPECIAL 4-Door Riviera

WANT SOME QUICK FACTS on the big news in automobiles today—news that can guide you to a smart move and a real smart buy?

Then listen—it won't take long.

The 1956 Buick has so many new developments—in styling—in power—in performance—in ride and handling—that it is, literally, the best Buick yet. That's Fact No. 1.

And Fact No. 2 proves it: Buick today is more strongly entrenched than ever in the top three of the nation's best sellers—outselling all other cars in America except two of the well-known smaller cars.

One big reason for this success is the strapping new Buick SPECIAL—like the one pictured here.

It's priced right close to those smaller cars—but, like every '56 Buick, it's a whale of a lot more new car for the money.

It cradles a big, new 322-cubic-inch V8 engine that's record-high in power and compression, and crammed with engineering news even the costly cars can't claim.

It makes the most of every bit of power with a new version of Variable Pitch Dynaflow* that's the most efficient yet. With a new development the engineers call "double regeneration," Dynaflow gives you great new acceleration from the first thrifty inch of pedal pressure. *Even before you switch the pitch.*

And this '56 Buick cushions you in the softest ride ever. Shows an uncanny sense of direction on every curve and turn. Puts a whole new feeling of safety, security and solidity into every mile you drive.

So before you buy *any* car—catch up on the latest news. Come try a '56 Buick. When you see how much new automobile your money *can* buy, we don't think you'll ever settle for less.

*New Advanced Variable Pitch Dynaflow is the only Dynaflow Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.

No run off from a 2 inch rain on May 31, reports ditsrict cooperator A. C. Akridge near Bellfals. All of his cropland has been treated with deep rooted hubam sweet clover. His land is also terraced and contour farmed. His terraces empty on Bermudagrass waterways.

Good penetration of moisture from the 2 inch rain was observed by Mr. Akridge; it went down 6-8" where it met moisture already stored from previous rains. Nearby cropland on farms where there was no conservation treatment there was great deal of run off and soil loss.

Gaston Mayes, cooperator with the Central Texas Soil Conservation District, lives in the Dog Ridge community, and has constructed a 2,000 cubic yard pond for live stock water. The pond was centrally located in Mayes' pasture so that his entire pasture would be evenly grazed.

Mayes plans to improve his range grasses by proper stocking, deferred grazing and clearing some cedar and brush.

This pond will also furnish stock water where some of his cultivated fields are being used for temporary grazing.

Lawrence McClerren, a Distirct cooperator in the Marlow community near Cameron, has furnished Coastal Bermuda sprigs to farmers all over the district this year. He reports that in spite of poor weather conditions for Bermuda sprigging, many farmers have set out sod plots and large acreages in all parts of the area.

Lawrence started with a two acre plot three years ago and has increased his acreage to about 90 acres. To furnish good fresh sprigs to the public, he fertilizes heavily and has developed his own system of production line harvesting. On a few hours notice he can have roots ready to be planted in nearly any amount.

With the soil bank coming up and the need increasing for all grass crops, supervisors point to the need for other farmers to develop a local supply of other planting stock such as side oats grama, King Ranch bluestem, switch grass, Indian grass and many others that are adapted in this area.

CAMERON

From the Cameron Herald

McCown-Turnham Reunion is Held. (Aboup July 13, 1913) These two pioneer families live over the early days again.

It has been said that dispensing of old time Southern hospitality is one of the lost arts. If there be those who accept that as a fact, I wish that they too could have been invited with me to spend a day in attendance at the McCown family reunion, which was held at the old home on Little River two miles from Cameron.

The old house, which has been uninhabited for some time, was opened up, and the members of the family of Mrs. Susan McCown had a most joyous time together. Mrs. McCown, now 77 years of age, has with her a sister Mrs. Fannie Holt of Midland, Texas, whom she had not seen for 35 years, and whose age is 74. Nick Turnham, her brother, was also with the company, and Mrs. Sarah Turnham, 83 years of age, a sister-in-law, was at home among them. Mrs. McCown, whose mind is as bright as that of a school girl, told of many sacred scenes of childhood - little incidents dear to the hearts of families, beautiful tributes paid to the memory of dear ones once she loitered by the scared old hall with.

The morning was spent in recalling the early trials, struggles and pleasures of the early days in Texas, much interesting history that is not and never will be published. The early struggles of the parents were relieved of much of their somberness by the telling of bits of pleasanties that took away the shadows. Mrs. Holt gave memory sketches of the old home she had not seen for 35 years that were both sad and pleasing to hear.

Mrs. Turnham reicted from McGuffey's third reader a recitation she had learned when she was six years old, "Were You Ne'er a School Boy".

To have enjoyed the bright entertaining conversation of those dear old ladies, to have been brought almost face to face with our own childhood, associations, brought to mind these lines:

"Backward, turn backward, Oh time in your flight;
Make me a child again just for tonight."

No. "Southern hospitality" is not dead. It will not die. It has been transmitted to those who come after such parents.

While they were living over the fun and frolic of the time when they were little girls and on through their womanhood, and on until now, when it is almost as a tale that is told.

"This memory brightens o'er the past,
As when the sun concealed
Behind some cloud that near us hangs,
Shines on a distant field."

And I was drinking the sweet stories from their memory treasures, Mesdames Pope and Sampson, whose thoughtfulness of their mother's pleasure had planned this reunion, were busy in the old kitchen preparing a dinner that none but a relic of the old South can bring to a successful culmination.

When dinner was announced we found the long dining table loaded, yes, absolutely loaded, with good things to eat, every one doing justice to the bountiful meal.

One of the special features of the afternoon was the sweet old song, "The Yellow Rose of Texas," which was sung by Mrs. McCown and Mrs. Turnham.

The Memory of that day will live with us when many of the passing scenes of today shall have been forgotten.

Marine Private Ervin W. Whitehead Completes Training

Pvt. Ervin W. Whitehead, is scheduled to finish four weeks of individual combat training May 31 at the Marine Corps Base, Camp Pendleton, Calif.

Pendleton, California. He is of 809 W. Hefley., Cameron.

The course of instruction at this huge training base includes the latest infantry tactics, first aid, demolitions, field fortification, and advanced schooling on weapons.

The trainees learn that all Marines are basically infantrymen, whether they serve as cooks, typists, truck drivers, or with aviation units.

The training is given to Marines scheduled for duty overseas and to all graduates of recuit training before they are assigned to new duty statpons.

Bluestone may be successfully used to clear water troughts, pond or reservoirs of green scum. Ask your local county agent for a copy of L-55.

Joyce Nicholson Tours Filmland; Visits Relatives

Joyce Nicholson, daughter of Mr. and Mrs. Bert Nicholson of Cameron, and May graduate of Yoe High School, arrived in Hollywood Friday, where she will be the guest of her uncle and aunt, Mr. and Mrs. David L. Wade. While in the Film Capital, Miss Nicholson will enjoy many of the star-studded attractions such as the famous Moulin Rouge, Palladium, Disneyland, Knott's Berry Farm, and Farmer's Market.

During her tour she will be a special guest at Paramont Pictures, and will see many network television and radio shows in production. Other highlights of this junket will include tours through Beverly Hills, San Fernado. Valley, Malibu, and other points of interest in the California Southland.

On arriving in Hollywood, Joyce met and talked with Elvis Presley, one of today's leading recording artists and she reports that her uncle, Mr. David Wade, formerly of Cameron, now a television producer in Hollywood, promises introductions to other motion picture and television stars. Miss Nicholson will return next week by American Airlines.

So Pac Lines Win National Safety Council Award

Southern Pacific Lines in Texas and Louisiana has won the National Safety Council's Class B railroad employes' safety award for 1955, R. de Waal, general manager, said today.

The Southern Pacific ratio of 3.87 per cent for its 33½ million man-hours worked during 1955 topped all railroads in the United States in the 20 to 50 million man-hours group.

De Waal said the National Safety Council awwrd is a voveted one among railroads and that Southern Pacific could not have won without the wholehearted support of the safety program by the railroad's more than 17,000 officers and employes in Texas and Louisiana.

The 1955 award is the fifth NSC citation won by Southern Pacific since 1928.

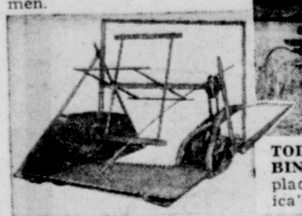
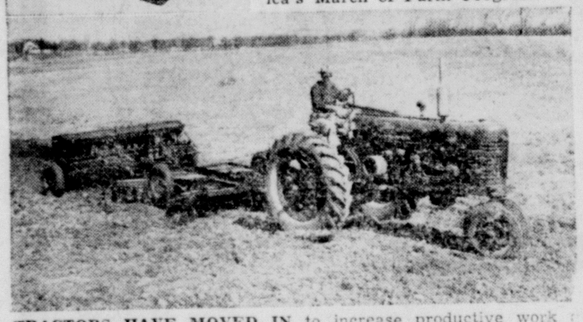
The Old Gray Mare Just Ain't

SIGHTS LIKE THIS may be vanishing from our American scene, but Marion Embry, Fort Scott, Kan., prefers his four-horse hitch to his modern tractor for seeding oats. Horses and mules on U.S. Farms are dwindling fast. The number was 27 million in 1918; by 1940 there were but 14 million; and today there's less than 5 million draft animals in use, or one-fifth the number 30 years ago.

ALSO COME AND GONE have been Cyrus McCormick's first reaper and the binders that followed. This reaper did the work of five men.



TODAY NEARLY A MILLION COMBINES, large and small, have replaced reapers and binders in America's March of Farm Progress.



TRACTORS HAVE MOVED IN to increase productive work. A farmer can do in a day, the number skyrocketing from only 246,13 in 1920 to 4,377,700 now on farms. Today's farm wages are three times as high as they were in 1940, and the number of people to do the work on farms has dropped one-fourth in 15 years.

DOOR PLANT — make doors" gives an insight into the man George Quinif and he didn't seem to have "his tongue in his cheek." He is firmly convinced that "Lady Luck" being his sole partner in business is one of the most advantageous aspects of the business. "There is no board of directors to consult on problems of production or sales" which means that competition can be dealt with summarily and this consitutes much of the luck.

If there really is luck involved it is on the side of the Southern Pacific Railway Co. In the beginning of the Quinif operation, on the outskirts of Cameron, the rail way was promised twenty-five cars per month almost from the beginning. Today, only days after the first re-payment check to the Citizens who invested in the original plant the equivalent of fifty cars per month are moving and this promises to go higher with each passing month.

Most of the cars moving raw product into the plant are "double loads" with 10,000 sheets of plywood for a total of 80,000 pounds of the Lauan Mahogany from the Phillipine Islands to each car.

"The people might be tired of hearing about the door plant" opined George in the beginning of the interview. On the other hand he was reminded that up until now the stories were about an unknown quantity. They were accounts of a business venture that was setting up here and NOT about PRODUCTION of 1720 doors per day and a PAYROLL of more than $10,000 per month to be spent in commercial channels here. No the stories are vastly different in the minds of the "dubious" the "agnostics" of Cameron. The story of PRODUCTION is a relief to all here...and then we got the story of Walled-Lake Door Production.....By George.

Ralph Yarborough's Family Called Texas Home For Century

Farm and wheat harvest hand, rolling pin were arranged at his oil field worker, county school teacher, assistant attorney general, judge, soldier, civic servant - Ralph W. Yarborough of Austin has been all of these.

Born June 8, 1903, near Chandler (Henderson County), to a family that has called Texas home more than 100 years, Yarborough spent one youthful year in military school, another working and studying abroad and two sessions at Sam Houston State Teachers College.

Graduating with highest honors from the University of Texas Law School, he joined an El Paso law firm, but was drafted by then Attorney General (later Governor) James V. Allred as an assistant. In this post he gained statewide fame for winning hundreds of millions of dollars in oil and gas lands for Texas and writing the opinion that later bedrocked Texas' case for recovery of her tidelands.

Yarborough was an original director of the Lower Colorado River Authoriy - the dam-buidling agency that made the Austin area water-plentiful at no cost to taxpayers.

When World War II came and after 5 years service as a district judge, Yarborough (in his youth a 36h Division enlisted man) was commissioned an Army captain. He served in both Europe and Japan - as a staff officer of the 97th Infantry Division under Eisenhower and in military government under MacArthur.

He is an American Legionnaire, a Veterans of Foreign Wars member, and has served as Travis county Bar Association president, director of the Texas State Bar, member of the Board of Law Examiners, and the American Law Institute.

He has worked in many Austin civic projects and headed Red Cross and Community Chest drives.

He is a Baptist, member, former trustee, and Sunday School teacher of Austin's First Baptist Church, in 1928. They have one ingly loyal Democrat.

He married his boyhood sweetheart, the former Miss Opal Warren, a member of the Christian Church, in 1928. They have on son son, Richard, now in military service.

VACATION TIPS

Here's a tip for vacationing motorists: Put that glove compartment to work by turning into a well -stocked first aid kit which should include such standard items as bandages, iodine, eye drops, aspirin and salt tablets. Each of these will play an important part in making the long drive to vacation and an enjoyable experience instead of a night mare.

JOLLY FISHERMEN

Fishermen are getting smarter all the time: They may not be catching any more fish, but at least they're making sure the long hours in the boat will be physically comfortable by adding such items as sun-tan lotion, bandages, eye drops, iodine and salt tablets to their tackle boxes. Also it's wise to take along a comfortable kapok cushion that can double as a life preserver.

UP TO PAR

The young country club set seems determined to be relaxed and comfortable, even if the girls don't always make the lowest golf scores. The latest is to carry suntan lotions, eye drops, insect repellents and first aid bandages in with spare balls and tees to make sure that when they hit the 19th hole, they will look as up to par as they were when they approached the first tee.
